Developmental and Web: Eclipse, Google Web Toolkit, Android SDK, Java, HTML, CSS, XML, Python, PHP, Adobe Flex, Rails.

Database: MySQL, Oracle, PostgreSQL.

Software: Windows workstation and server systems, Ubuntu, Macintosh systems, Clonezilla, GParted, Microsoft Office, Visio.

EDUCATION

Honolulu Community College, Honolulu, Hawaii

Associate in Science in Computing, Electronics, and Networking Technology (CENT)

Graduated May 2007

Hawaii Pacific University, Honolulu, Hawaii

Bachelor of Arts in Systems Administration

Expected Graduation: December 2010

EXPERIENCE

Computer Lab Monitor

August 2007 – January 2010

Information Technology Center, Honolulu Community College

Worked with a network of 40+ computers, both Windows XP and Mac OS X. Assisted students and faculty in computer troubleshooting and support. Occasionally tutored students in general computer skills. Maintained computer lab equipment as needed, including software updates and operating system re-imaging.

Flex and Rails Programmer

June 2009 – July 2009

Honolulu Community College

Wrote prototypes for a learning tool for instructors to create tutorials and quizzes using Adobe Flex and Ruby on Rails. Designed databases in MySQL under direction of supervisor.

PHP and Database Programmer

December 2008 – July 2009

Honolulu Community College

Wrote prototypes for a course evaluation database system for instructors in PHP and designed databases in PostgreSQL under direction of supervisor.

Computer Technician/Support

June 2006 – August 2007

Civil and Environmental Engineering, University of Hawaii at Manoa

Provided technical troubleshooting support for faculty and staff. Wired cables through classrooms and labs. Repaired and maintained computer peripherals as needed. Maintained a LAN of 50+ Windows XP computers on a Windows Server 2003 domain structure. Created and managed Active Directory accounts for students and faculty in said network.
